

CENTRE QUALITY ASSURANCE SELF ASSESSMENT

GUIDANCE

The purpose of a Centre Quality Assurance Visit is to check whether standards are being maintained. An approved training centre can be subject to an announced visit at any time from a JAUPT or DVSA/DVA representative and the auditor will complete a similar form to this document.

We would recommend that you refer to your most recent Scheme of Control that you have submitted to JAUPT as part of your centre approval. Guidance on this can be found at <https://www.gov.uk/guidance/set-up-a-driver-cpc-training-centre>

To help you with this process we have devised this self-assessment checklist so that you are aware of the areas we will be looking at. We hope that this self-assessment will assist you with the identification of areas of continuous improvement and ensure that you are ready for any visit by a JAUPT or DVSA/DVA auditor.

The areas covered include administration processes, trainer selection and their professional development, internal quality assurance and record keeping.

Where possible we have indicated a link to resources which may assist you when completing the form .

The responsibility for quality and safety at an approved training centre lies with the responsible contact i.e. the person operationally responsible for periodic training. By completing this self-assessment it is not in itself a suitable and sufficient means of ensuring full compliance.

CENTRE QUALITY ASSURANCE SELF ASSESSMENT

ADMINISTRATION PROCESSES

		Yes/No	Notes/Comments/Areas for Improvement
2.1	<p>The centre can demonstrate that it has a method to ensure consistency of training delivery</p> <p>You may wish to consider using the Course QA Self Assessment Form</p>
